

31.3.2010

Dear Mr. Kaechele,

I am sorry you didn't manage to get visa from the Embassy (shame on bureaucrats of all nations!).

Yes, I confirm you can get visas at the border! Many people have done and you will do. Please see attached Armenian visa application form for your reference. You can have it filled out on your arrival or alternatively get one at the border. Simple visitor visas are issued at the border with the shortest period of validity of 21 days. The fee is Armenian Dram 3,000, which is approximately USD 8.

I have found a driver who regularly takes people from here to Tbilisi and vice versa.

We will pay him here. He will drive to Tbilisi on Apr 12 and will return to Yerevan on Apr 13 with you, so you don't have to pay for taxi at all.

Additionally I will provide the driver with 2 invitation letters for you and your spouse from Armenian Psychoanalytical Association which you will present at border along with the application forms. I will state our phone numbers in the invitations so that the Officers can contact us just in case. Could you please provide you wife's name and surname?

I do not believe it is going to be a complicated procedure, I know for sure that visas are regularly and easily issued for foreigners crossing border from Georgia. For comparison, example and illustration: issuing visa at the airport (which is just another border) takes literally 5 minutes! It should be a very similar procedure at any border.

It takes 4-5 hours to drive to Yerevan from Tbilisi, so it would be great if you depart from Tbilisi in the morning to be in Yerevan early afternoon.

The driver's name is Volodya, he is driving a comfortable Mercedes, number 535 OOC. I have already provided Khatuna with his Georgian cell phone number and will pass him Khatuna's cell and home numbers.

Best regards,

Anahit

Anahit

our effort to get a visa for Armenia in Germany failed, they told us they need more time.

Could you check if we really can cross the border via taxi getting the visa there?

or would we better take a plane from Tbilis to Yerevan?

Dear Mr. Kachele,

I believe it would be better if you settle in first in the apartment we prepared for you, so that you leave your suitcases and have some rest after the ride.

The address is the same:

16 Azatutyan Ave, apt 12, Yerevan, Armenia.

I will meet you there in the street and lead to the apartment.

I will be in contact with Khatuna to make sure she can explain the address to taxi driver. We have already discussed this with her.

I would be great if you let me know your cell phone number (if you are using roaming), so that I can contact you just in case.

My cell phone is + 374 91 43 35 37 .

Should you have any questions, please let me know.

Best regards,
Anahit

Anhahit

we checked and we have to have the visa, so I filed our application to the Amermenian Embassy today.

Where are we heading for when we arrive in Yerevan?

Dear Mr. Kachele,

The landscape actually doesn't matter – Customs control is Customs control everywhere ☆)))))) Though, I agree, it's better to have a ready visa for the save side.

I wish you a very save trip!

Looking forward to seeing you in Yerevan!

Best regards,
Anahit

Dear Mr. Kachele,

Visa is issued at Customs control. Should be an easy and short procedure. Or you are issuing it Armenian Embassy in Germany?

The address is :

16 Azatutyan Ave, apt 12, Yerevan, Armenia.

Please let me know if you need any additional information!

Best regards,

Anahit

Dear Mr. Kaekhele,

As far as I understood from Khatuna's recent communication your flight has been changed.

Could you please forward your final itinerary and confirm what particular days have you planned for stay in Yerevan.

Thank you very much and best regards,
Anahit

Am 27.01.2010 um 08:01 schrieb Anahit Krishchyan:

Dear Mr. Kaechele,

Thank you very much for providing materials!

I got acquainted with both presentation and 2 papers with great interest. I believe that the presentation and the first article (Psychoanalytic Controversies Psychotherapy: Discussion) are related and we can discuss this in our group on Apr 8.

I will translate the article and distribute it to our group members for discussion. As for the presentation, **unfortunately we don't have overhead projector** to go through it in parallel with the paper, but we can print it out and distribute to people so that they can look at it in case you refer to some data from that research. My guess is that the paper itself will raise a lot of interest and questions/discussion and the presentation can rather serve as statistical illustration to some implications.

“Comparative Psychoanalysis on the basis of a new form of treatment report: the case of Amalia X” is an excellent material for public lecture. Clinical illustration of the exchange between the analyst and the patient with

interpretation technique and its considerations are highly exciting and didactic. I believe this paper will create a lot of interest. Discussion of the “measures of interpretative enterprise” are a very valuable conclusion to the issues raised in the paper.

So, your visit agenda is more detailed now:

Apr 7:

- Arrival to Yerevan;
- Settling in, Lunch;
- Informal meeting with the group
- Dinner
- Entertainment

Apr 8:

- Paper (Psychoanalytic Controversies Psychotherapy: Discussion) discussion in our group
- Lunch;
- Free time;
- 1 case supervision for the group
- Dinner
- Entertainment

Apr 9:

- Public lecture: “Comparative Psychoanalysis on the basis of a new form of treatment report: the case of Amalia X”
- Lunch
- Free time/Entertainment
- Dinner
- Departure (Apr 10, early morning; we’ll take you to the airport – you need to be there 2 hours before the flight)

Please let me know if the plan looks OK to you.

We are looking forward to seeing you in Yerevan.

Best regards,
Angela, Anahit

Dear Anahit Krishchyan,

your planning sounds reasonable.

April 7th: after arrival informal meeting your the Armenian psychoanalytic group: I could present my most recent paper which is in press in the Int J Psychoanalysis on the (unnecessary) distinction of proper psychoanalysis and analytic psychotherapy:
